UTL-14R™ Sport Pontoon Boat

The UTL-14R™ Sport Pontoon Boat is a versatile and durable watercraft designed for both recreational and commercial use, making it perfect for fishing, hunting, or an afternoon cruise. With a spacious deck and premium construction, this boat is built to withstand daily use and provide a reliable experience on the water. Additionally, its low environmental impact and customizable options make it an excellent investment for various water activities.

UTL-14 Pontoon Boat

The UTL-14 Pontoon Boat is a new commercial small water pontoon boat built to last. The sturdy construction will make it perfect for moving cargo, cleaning up waterways, assisting with dock and marina work, and more. The spacious platform accommodates multiple passengers and uses.

APM-14 Pontoon Boat

The APM-14 Pontoon Boat is a premium small water pontoon boat perfect for recreational use on your small lake or pond. The spacious 14-foot platform accommodates four to six adult passengers, making it the ideal boat to enjoy the sunset cruise or the early morning fish.

EP-14 Electric Pontoon Boat

The EP-14 Electric Pontoon Boat is the eco-friendly companion to the APM-14. With seating for four to six adults, quiet evening sunset cruises and fishing excursions are within reach while maintaining a low environmental impact.

10-Year Limited Structural Warranty!

DISCOVER APP-MARINE'S SPECIALIZED SMALL WATER PONTOON BOATS

At APP-Marine, we specialize in purpose-built pontoon boats designed specifically for small lakes, ponds and restricted waterways. Our boats are crafted for shallow depths, effortless handling, and reliable, stable performance- making them the perfect choice for relaxed cruising, fishing, and utility use on small bodies of water.

Built for Small Water - Backed by Big Experience

With of 50 years of pontoon-building expertise in Michigan, APP-Marine designs are rooted in commercial-grade durability and proven performance. Our small water pontoon boats feature 23" pontoons with a compact, stable 8'x14' footprint. This configuration allows for use on restricted lakes while maximizing stability, capacity, and shallow draft performance.

Comfort, Functionality, and Versatility

Whether you're cruising with up to six adults (or a boatload of kids), enjoying a peaceful day of fishing, or hauling gear across your property, APP-Marine has a model to meet your needs. All boats come standard with:

- Three easy-access gates
- Water-level swim ladders
- Secure, steady decks for safe boarding and comfortable movement

Choose Your Power: Gas, Electric, or DIY

We offer flexible power options to suit your lake's regulations and your preferences:

- Suzuki outboard motors ranging from 9.9 HP to 20 HP
- Fully engineered electric models for quiet, eco-friendly operation
- Power-free hulls if you prefer to install your own motor system
